## Why **face to face** debt Recovery is effective

The most common reason that businesses lose money due to unpaid debts is that letters, texts and calls can be easily ignored. These items cost YOU time and money, adding to the overall loss.

Cobra Financial Solutions provide professional, face to face debt recovery. It may be easy to ignore a letter, but slightly harder to ignore a member of our enforcement team!

Unlike many companies out there, we don't use threats or intimidation to secure a result. Our experience has taught us the fastest and most efficient way to collect all of the monies owed is to negotiate settlements with your debtor to your benefit, face to face.

**90% success rate** in 2019  
(an industry high)

“Cobra were extremely efficient and thorough dealing with a very slippery customer who was also a near neighbour on our industrial estate in Uxbridge, West London... Cobra, I cannot thank you enough.”

## Why choose **Cobra**

Cobra has an industry high success rate for debt recovery of 90% and in 2019 recovered over £14m for our clients. If you are looking for the service that is most likely to be able to recover the debts owed to you, **Cobra gets the best results.**

Some debt recovery companies use tactics like intimidation and threats to force debtors to pay their debts. Cobra uses face-to-face visits, where agents wear body-cams for all of their visits to record the negotiations. Cobra achieves the highest success rates in the industry through persistence and professionalism. This ensures that the reputation of any business that hires Cobra does not suffer any reputational damage, as could happen with a less professional debt recovery service.

Each of Cobra's clients is provided with access to an online portal which allows them to track the progress of the case at any time. With cases being actioned within 24 hours and the debtor visited within the next 24 hours, the case will quickly progress and with Cobra's high success rates, you should have a result on your case very soon after appointing Cobra.

Typical court fees for going through the small claim court is 5% of the amount you being claimed, which can work out significantly higher than working with a company like Cobra. Going through the courts can take anything from six weeks to six months to get an outcome and you are still not guaranteed to get your money back. When you appoint Cobra for your debt recovery, the cases are actioned within 24 hours and the debtor is visited within 48 hours of the client's instruction.

“I would imagine their (Cobra) professional and proactive approach would be beneficial to others in a similar position to what we were in prior to instructing Cobra.”
